

Providing Sustainable Energy

## Financial Solutions

Unlocking capital to create energy savings

[www.gienergyus.com](http://www.gienergyus.com)

## MISSION

State of the art **technology**. World class **engineering**. Outstanding **execution**.

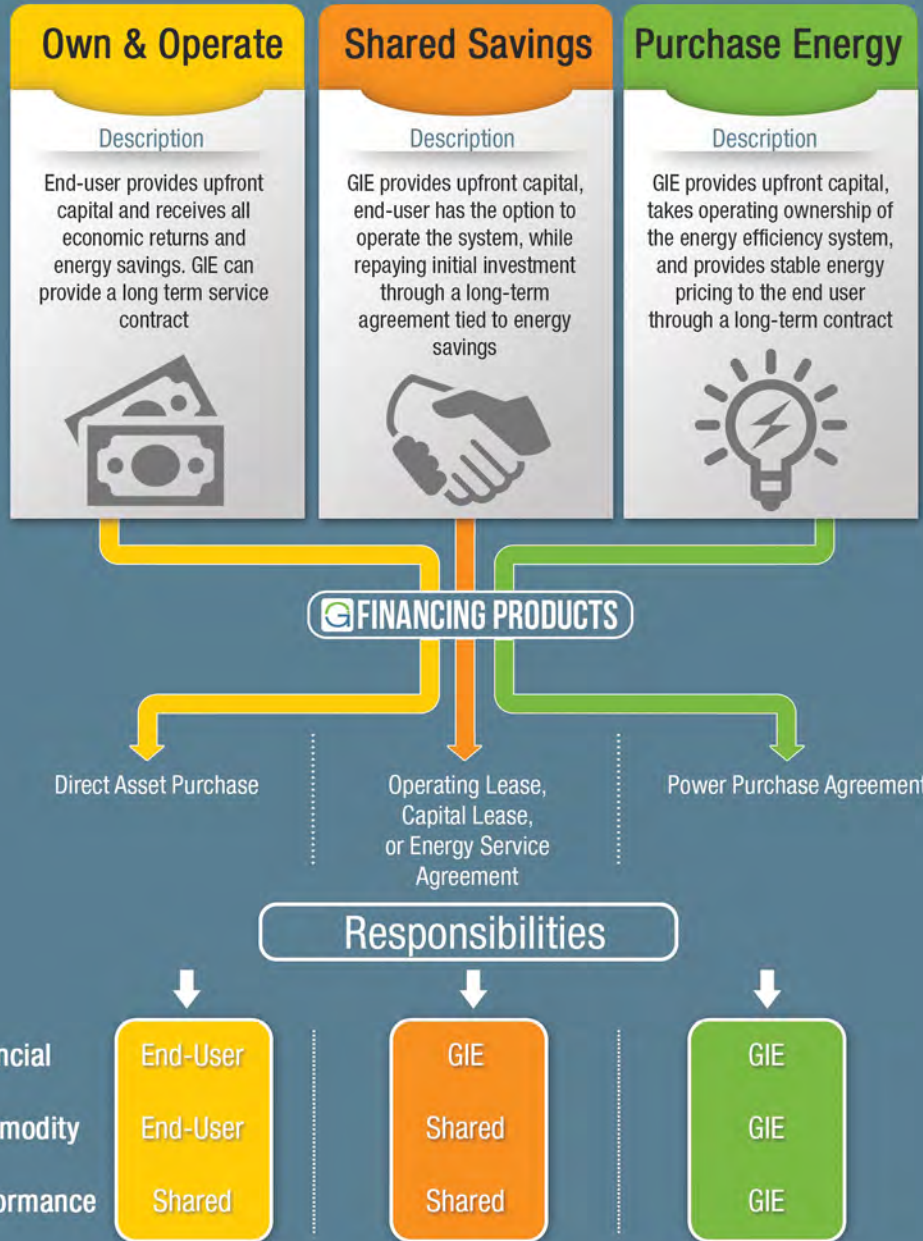

By building long term **partnerships** around innovative solutions, we provide quality service and **excellent value** that **maximizes customer returns** throughout the project life-cycle.

Our **Financial Solutions** team works with leaders in banking, finance and the ESCO communities to develop a wide range of funding options. Our solutions are tailored to customer needs and ensure full monetization of all incentives. Our models include: **asset ownership, tax-exempt energy finance, traditional operating and capital leases, energy savings agreements, power purchase agreements, PACE funding and monetizing investment tax credit equity.**

### Three Strategic Business Lines Supported by Financial Solutions

# Choosing the Right Option for You

## CASE STUDIES

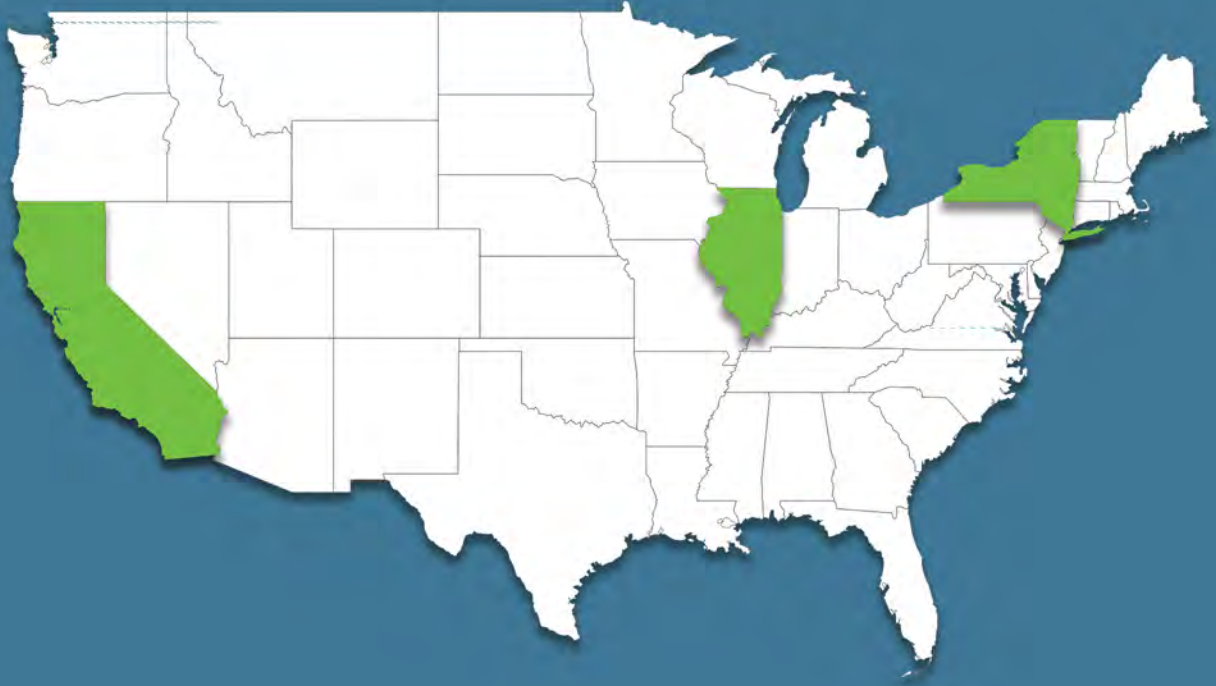

### Ground Source Heat Pumps for a Private University

GIE sourced an off-balance sheet solution to finance a \$6 million geothermal project for the development of the University's new net-zero academic building.

### Rehabilitation of Combined Heat and Power Plant

GIE provided a cost-benefit analysis to rehabilitate a 1.5MW cogen plant for a large regional county hospital. The analysis included return on investment, payback scenarios, and analysis of available incentives and financing products.
